

Introducing: The Plating Barrel Cart

Plating barrels are awkward to install, transport and store.

NEW

So we created a solution.

Plating Barrel Cart

Adjustable and designed for most standard barrel sizes, this cart holds a barrel for changeovers, transportation, and storage. Here are three ways the Plating Barrel Cart creates a safer, more efficient workspace:

- 1. Safety:** Reduce the risk of injury and maintain a cleaner workspace.
- 2. Productivity:** Do faster changeovers and extend barrel life.
- 3. Quality:** Reduce risk of barrel contamination and damage.
